CAV Wrapped

Your year at Canada Air Virtual in one page, open every year from 1 December to 31 January.

- Your year in review

Your year in review

CAV Wrapped is your year at Canada Air Virtual in one page: how much you flew, where you went, what you flew, your best landing and your records, all ready to share. It opens on **1 December** every year.

When it's open

Wrapped opens on **1 December** and stays open until **31 January**.

- During December your page says **"so far"** and keeps updating as you fly. New flights show up within an hour of being approved.
- From 1 January it covers the whole year, and doesn't change any more.

Where to find it

- **On the website:** the Wrapped banner on the Crew Centre, or the **2026 Wrapped** button on your profile (it appears once you have an approved flight that year).
- **In CAVacars 2:** the CAV Wrapped card on the Home screen (CAVacars 2 1.3 and later). You can hide the card if you don't want to see it.
- To see another pilot's year, use the same button on their profile.

What counts

Every **approved** PIREP from **1 January to 31 December** counts, whichever way you filed it: CAVacars 2, smartCARS 3, FsACARS or a manual PIREP. A PIREP that's still waiting for review shows up once it's approved. Deleted PIREPs don't count.

The smoothest landing uses the touchdown CAVacars 2 measured when there is one, and the PIREP's landing rate otherwise. Impossible rates (zero, climbing, or over 3,000 fpm) are left out.

What's on your page

- **Your year in numbers:** flights, hours, distance and, where your PIREPs recorded them, passengers and cargo.
- **Where you went:** a map of every route you flew (busier routes are drawn thicker), the number of airports and countries, your top 10 airports and the airports you visited for the first time this year.
- **What you flew:** your top 10 aircraft types, by flights and hours.
- **Your records:** your longest flight by distance and by time, and your smoothest landing.
- **Your rhythm:** flights per month, your busiest month, your favourite day of the week, how many days you flew, your longest streak of days in a row, and your first and latest flight.
- **Community:** event flights, tour legs and ferry legs, plus the promotions, awards and achievements you earned this year. Achievements started on 1 November 2026, so 2026 only has two months of them.
- **How you compare:** if you flew more hours than at least half of this year's pilots, the page tells you what share of them you beat.

No flights yet this year? Your page says so, with a **Find a flight** button.

CAV's year

CAV's whole year has its own page: everyone's flights, hours and distance, the route map, the busiest airports, the most flown aircraft, the year's records and who set them, and the top 5 pilots by hours. It's also what visitors see when they open Wrapped without logging in, so it's a good one to show friends who might want to join.

Sharing

At the top of your own page you'll find:

- **Download image:** your year as a picture with your route map and top numbers, ready for Discord, social media or anywhere else.
- **Copy link:** a link to your page. Pasted into Discord or social media it shows the same picture as a preview.
- **Share to Discord:** posts your picture to **#cav-wrapped** on the CAV Discord, with your name and a link to your page. You can do this **once per year**, while Wrapped is open. If your Discord account is linked, the post shows your Discord name, but it doesn't ping you.

Who can see it

Your Wrapped page is public, like your profile. It only uses what's already public on your profile and PIREPs, just added up. Anyone with the link can open it.
