Integration with Third-Party Tools

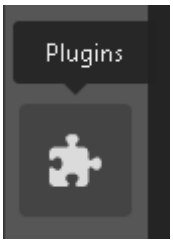
- Setting up SimBrief

Setting up SimBrief

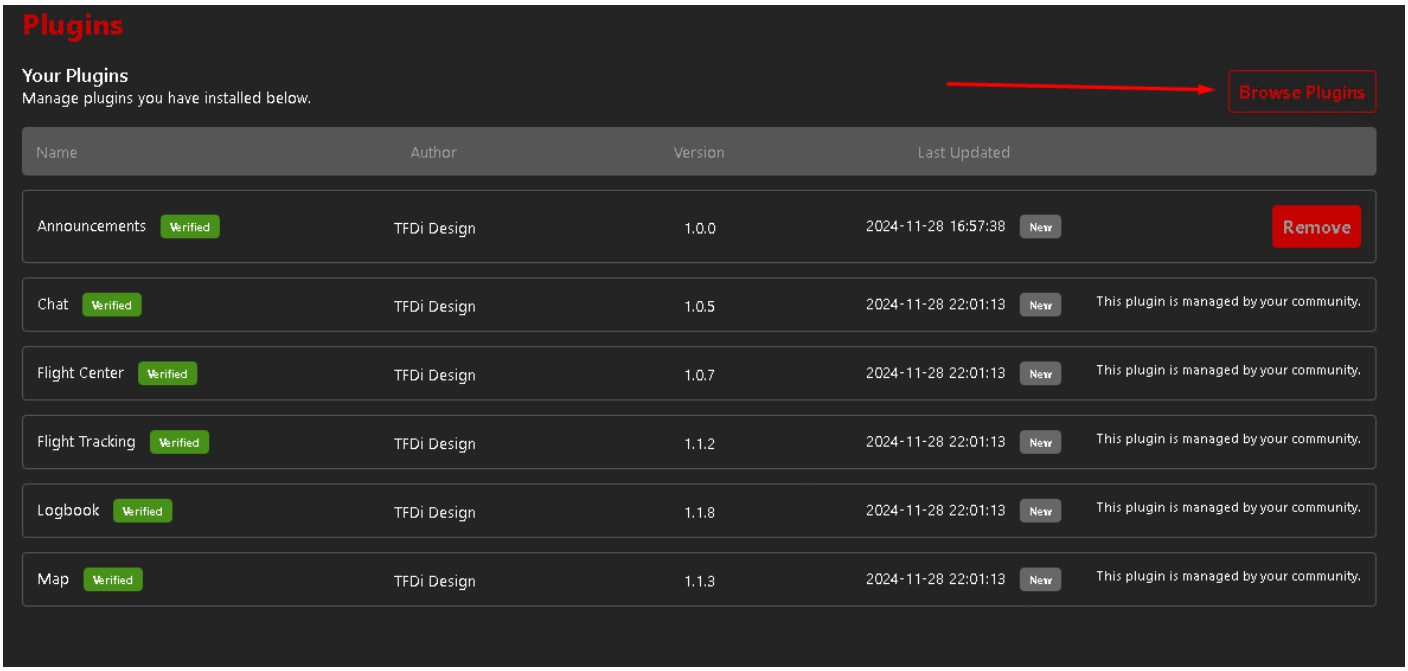
smartCARS 3 supports SimBrief integration via the use of an optional plugin. Follow these steps to install and configure it.

Install SimBrief Plugin

Go to the **Plugins** icon in the left side bar.



Click the **Browse Plugins** button in the top right.

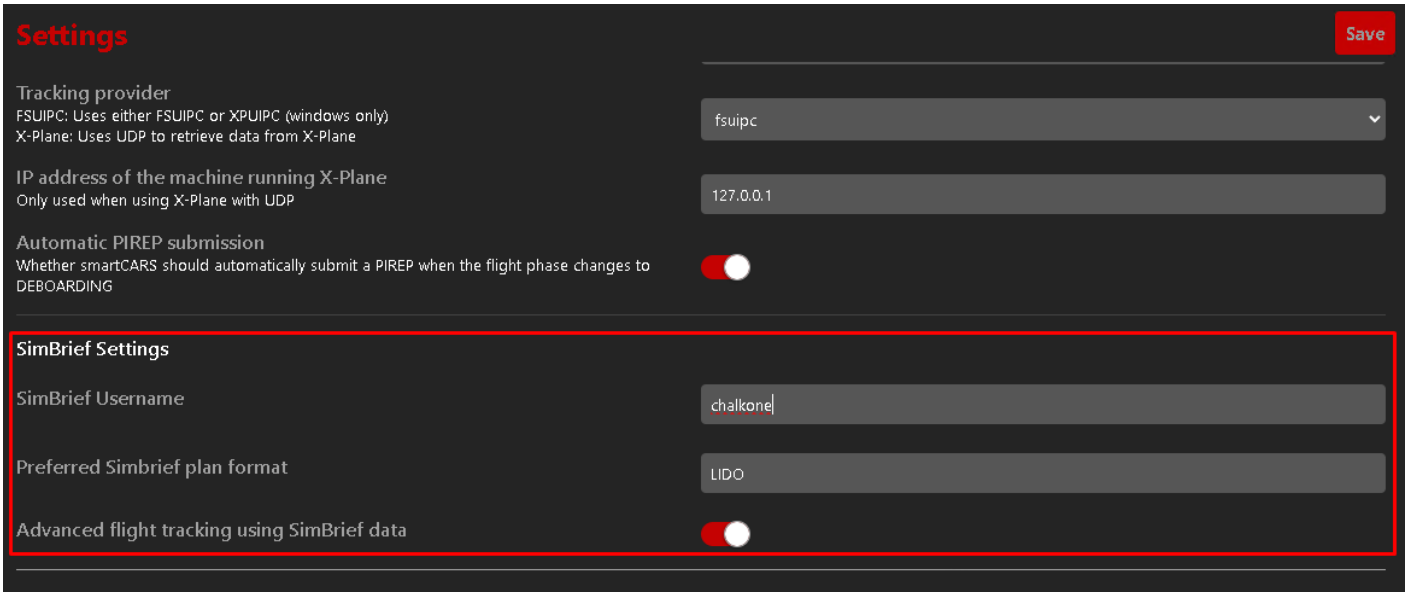


Find the SimBrief plugin and click the **Add** button.

> Restart smartCARS 3 for the plugin to activate

Configure the SimBrief plugin

Go to the **Settings** and fill out the new SimBrief settings.



> You can find your SimBrief Username in the SimBrief Account Settings in the "Your Navigraph Account" section under "Alias (Username)".
