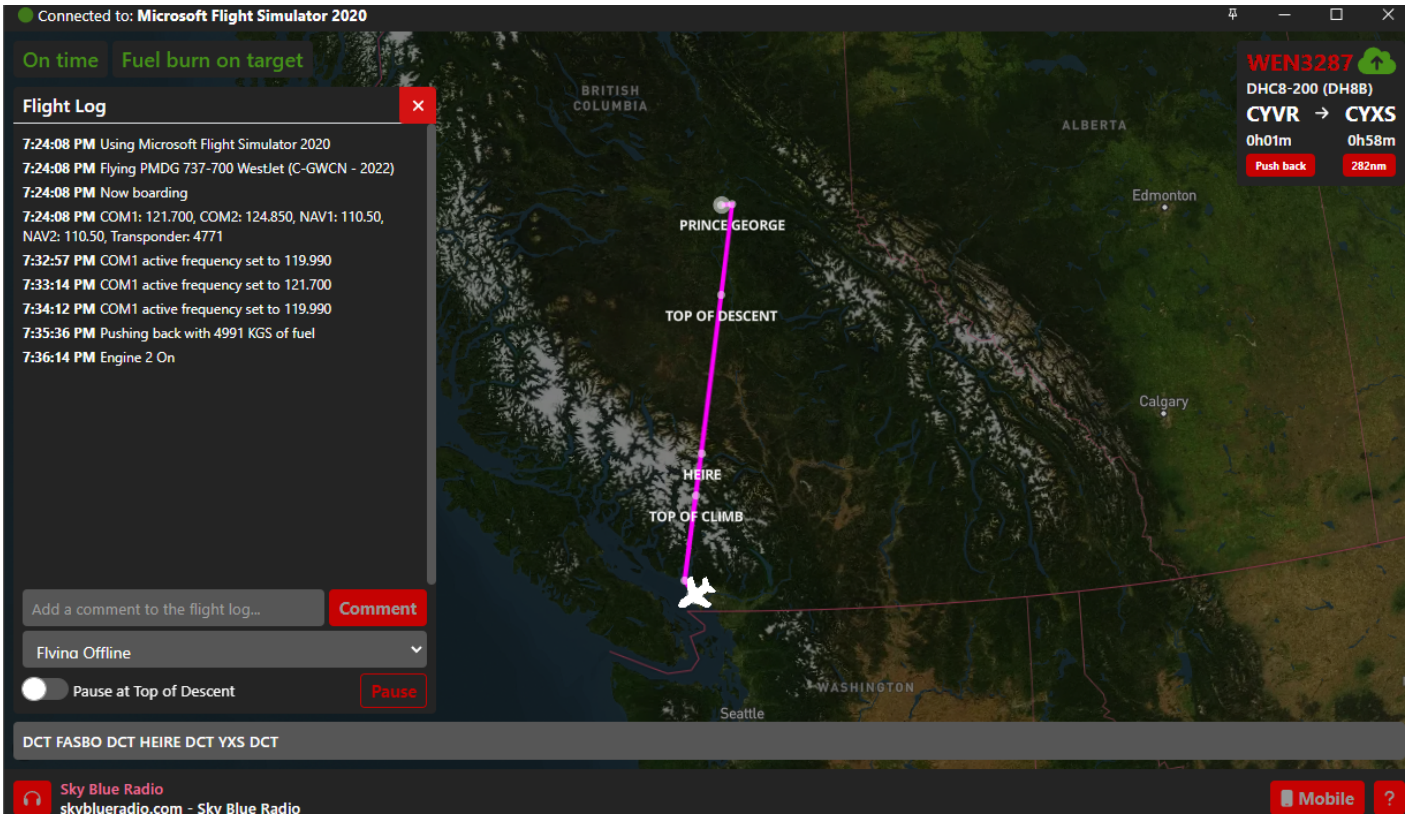
Monitoring your flight

During your flight, it is a good idea to keep an eye on the flight tracking in smartCARS 3 to avoid any nasty surprises upon arrival.

The screen below will show you all the details of how smartCARS 3 is tracking your flight.



You can also consult the Live Flights section of our website to ensure your flight is being recognized there.

> If you are flying a Tour Leg or Event, the **Type** column in the table should properly identify the Tour Leg or Event. If it does not, your flight was not dispatched properly. Consult our Tours and Events guides for more details.
