Dispatching a Tour Leg

This works similarly to dispatching a schedule, but you click the **Dispatch Tour** button.

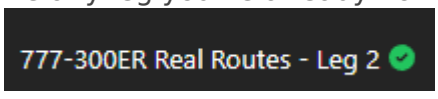

You're then presented with all the tour legs available for you to dispatch.

In order for a tour leg to appear here, it must meet one of the following conditions:

- Be the first leg in a tour
- Be any leg of a tour where the Legs Flown in Order is not a requirement
- Be the next leg of a tour where you've flown all previous legs
- Be any leg you've already flow (this will be signified by a checkmark icon)
