

Accessing flight logs

You can access your logbook on our [website](#), but it is also available inside smartCARS 3.

The screenshot displays the 'Logbook' interface within the smartCARS 3 application. It features a search filter section at the top with fields for 'Departure Airport', 'Arrival Airport', date ranges ('mm/dd/yyyy'), 'Any Aircraft', and 'Any Status'. Below the filters, it indicates '11 PIREPs Found' and lists them in a table. Each entry includes a callsign, departure and arrival airports, aircraft type, date, and a status of 'Accepted'. A sidebar on the left contains navigation icons, and a bottom bar shows a music player and a 'Mobile app now available!' notification.

Callsign	Departure	Arrival	Aircraft	Date	Status
CANCV02	SKBQ	SKSP	B737 MAX 8 (B38M)	2024-11-28 04:35:29	Accepted
