

Importing flight details from SimBrief

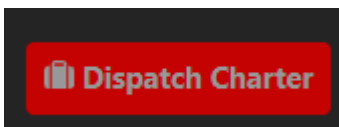

Access the Flight Center via the icon in the left sidebar.

You will be presented with the **My Dispatched Flights** screen, which will show any dispatched flights that are ready to be flown.

Import from SimBrief

To import flight details from SimBrief, click the **Dispatch Charter** button.

If you have the SimBrief plugin installed, you may click the **Import from SimBrief** button to import all the required data.

A screenshot of a web application interface for 'Flight Center'. The title bar shows 'Flight Center' and a back arrow, followed by 'Dispatch a Charter Flight' in red. Below the title is a section labeled 'Callsign' with a red underline. This section contains three input fields: 'Select Aircraft' with a dropdown arrow, 'Flight Type' with a dropdown arrow, and 'Cruising Altitude'. Below this is an 'ITINERARY' section. It contains two rows of input fields. The first row has 'Departure Airport', a time field with '@ HH : MM', and 'Arrival Airport', followed by another time field with '@ HH : MM'. The second row has a single 'Route' input field. At the bottom right of the form are two red buttons: 'Import from SimBrief' and 'Create'.

Click the **Create** button to create the flight.
