

Importing flight details from SimBrief

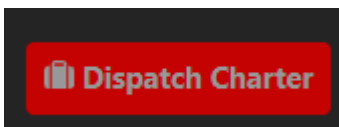

Access the Flight Center via the icon in the left sidebar.

You will be presented with the **My Dispatched Flights** screen, which will show any dispatched flights that are ready to be flown.

Import from SimBrief

To import flight details from SimBrief, click the **Dispatch Charter** button.

If you have the SimBrief plugin installed, you may click the **Import from SimBrief** button to import all the required data.

A screenshot of a web application interface for 'Flight Center'. The title 'Dispatch a Charter Flight' is in red. Below the title is a section labeled 'Callsign' with a red underline. This section contains three input fields: 'Select Aircraft' (a dropdown menu), 'Flight Type' (a dropdown menu), and 'Cruising Altitude' (a text input). Below this is an 'ITINERARY' section. It contains two rows of input fields. The first row has 'Departure Airport', a time input field with '@ HH : MM', and 'Arrival Airport'. The second row has a 'Route' input field. At the bottom right of the form are two red buttons: 'Import from SimBrief' and 'Create'.

Click the **Create** button to create the flight.
