

Importing flight details from SimBrief

Access the Flight Center via the icon in the left sidebar.

You will be presented with the **My Dispatched Flights** screen, which will show any dispatched flights that are ready to be flown.

Import from SimBrief

To import flight details from SimBrief, click the **Dispatch Charter** button.

If you have the [SimBrief](#) plugin installed, you may click the **Import from SimBrief** button to import all the required data.

A screenshot of a web application interface. At the top left, there is a back arrow and the text 'Flight Center'. Below that, the title 'Dispatch a Charter Flight' is displayed in red. Underneath the title is the section 'Callsign'. There are three input fields: 'Select Aircraft' with a dropdown arrow, 'Flight Type' with a dropdown arrow, and 'Cruising Altitude'. Below these is the 'ITINERARY' section. It contains two rows of input fields. The first row has 'Departure Airport', a '@' symbol, 'HH', a ':' symbol, 'MM', 'Arrival Airport', a '@' symbol, 'HH', and a ':' symbol, 'MM'. The second row is a single 'Route' input field. At the bottom right, there are two red buttons: 'Import from SimBrief' and 'Create'.

Click the **Create** button to create the flight.
