

Monitoring your flight

During your flight, it is a good idea to keep an eye on the flight tracking in smartCARS 3 to avoid any nasty surprises upon arrival.

The screen below will show you all the details of how smartCARS 3 is tracking your flight.

You can also consult the [Live Flights](#) section of our website to ensure your flight is being recognized there.

If you are flying a Tour Leg or Event, the **Type** column in the table should properly identify the Tour Leg or Event. If it does not, your flight was not dispatched properly. Consult our [Tours](#) and [Events](#) guides for more details.
