

Understanding the dashboard

Once logged in, this is what your dashboard in smartCARS 3 looks like.

The screenshot shows the smartCARS 3 dashboard with a sidebar on the left containing icons for home, messages, flight, settings, and other functions. The main content area is divided into several sections:

- Community Welcome Message:** A white box with the heading "Community Welcome Message" and the text "Welcome to Canada Air Virtual's ACARS system!".
- Pilot Survey:** A section featuring a "Pilot Survey" heading, an image of a hand pointing at a laptop screen displaying various charts, and a text block: "The team at Canada Air Virtual is looking for ways to improve your experience and we're looking for your feedback. We've created a short survey that shouldn't take more than 5 minutes to fill out. We're hoping to find out more about how you like to fly, what kinds of tours you're..."
- User Profile:** A box for "Jan P" (CAN3023) with the rank "ATP Senior Captain". It displays three statistics: Hours (1791), Flights (667), and Landing Rate (-240 fpm). Below these are links for "Switch Community" and "Log Out".
- Notifications:** A box with the heading "Notifications" and a "Clear All" button. It currently shows "No notifications".
- Footer:** A "Sky Blue Radio" player for "Suzie Mac - Brothers Johnson - Stomp" and a "Mobile app now available!" banner with "Download" and "?" buttons.

Note: you may not have one of the icons on the right side until you install the [Simbrief](#) plugin, should you so desire.
