

Unlimited Fuel, Mid-Air Refueling, and Enroute Fueling

Unlimited Fuel

The use of *unlimited fuel* is **not** permitted. This is a PIREP indicating no fuel was consumed during a flight.

If the use of unlimited fuel is detected, your PIREP will be **rejected**.

Mid-Air Refueling

The use of *mid-air refueling* is **not** permitted. This is manually adding fuel to your aircraft while in flight to extend its range.

If the use of mid-air refueling is detected, your PIREP will be **rejected**.

Enroute Fueling

The use of *enroute refueling* is **not** permitted. This is landing at an airport not noted in your flight Bid and refueling to extend the range of your aircraft.
